Parents Association

The Australian International School Parents Association (AISPA) actively embodies the schools' community spirit and provides an important opportunity for new and long-term families to meet and get involved in school life. In addition to the many events held throughout the year, AISPA is here to help you and your family settle in to school and life in Singapore, providing information, resources and most of all, friendship.

AISPA understands how valuable the contribution of your time and energy is and the positive impact it can make on fostering a vibrant and nurturing community. Whether you are new to AIS or a long term family, all are welcome to participate in this worthwhile endeavour that will be both fun and rewarding.
